Brief Description of cultural element	
During the interviews I learned about the geography of this village and the local's daily life experiences. I also learned about names of families who lived there and those still living there.	
Material objects associated with the element	
During the interview we talked about harvesting and agriculture in general and about the tools used.	
How is it used?	Agriculture tools are used to cultivate the land and collect the harvest.
Distribution:	Across Palestine, particularly in agricultural areas.
The story of the presentation	
The people of Tuba are aware of their history and heritage and they were able to tell me stories about the village. They made comparisons between the past and present and they told me stories about how the older generation used to live.	
How has this cultural heritage been transmitted to next generation	
By producing films to protect this heritage and to present it at exhibitions in order to educate the younger generation about the history of this village.
