

<b>Inventory of Intangible Cultural Heritage</b>	
<b>Category</b>	Harvesting
<b>Name</b>	Male
<b>Location</b>	South Hebron
<b>Key users/holders</b>	Bedouin community South Hebron
<b>Brief Description of cultural element</b>	
The scythe is made of metal. It is in the shape of a half circle. It is sharp from one end to enable us to cut the wheat. It looks like a crescent.	
<b>Material objects associated with the element</b>	
<i>Al manjal</i> (scythe), other harvesting objects	
<b>How is it used?</b>	Used during harvest to collect the wheat and hay.
<b>Distribution:</b>	Across Palestine, particularly in the agricultural areas.
<b>The story of the presentation</b>	
I remember a story where we were harvesting one day and I injured my finger from this tool.	
<b>How has this cultural heritage been transmitted to the next generation</b>	
Through exhibitions and organizing workshops to familiarize the public about it.	
<b>Risk elements</b>	
Industrial changes have made way for machines which are more sophisticated and which made this tool redundant.	
<b>Documentary evidence (ie. Interviews, video, photos)</b>	
Interviews, photos and a video recordings.
